INSTRUCTIONS

Type or print neatly in black ink.

Off-Specification Used Oil Fuel Burners are addressed in Utah Standards for the Management of Used Oil, R315-15.

This form shall be used to apply to the Utah Division of Solid and Hazardous Waste for a permit to act as an Off-Specification Used Oil Fuel Burner Facility within Utah.

This form must be signed by the company owner or his designated representative.

A fee of \$25 is required and must be attached with each permit application.

The owner or operator of a facility shall notify the Division of Solid and Hazardous Waste in writing of any changes in the information submitted to apply for a registration within 20 days of the change.

DEFINITIONS

- ! **USED OIL** - any oil, refined from crude oil or a synthetic oil, that has been used and as a result of that use is contaminated by physical or chemical impurities.
- ! **USED OIL OFF-SPECIFICATION BURNER** - any person who burns used oil which exceeds levels of constituents and properties as specified by Board rule and consistent with 40 CFR 279, Standards for the Management of Used Oil.

Permitted used oil off-specification fuel burners shall maintain a complete record of all analyses and transactions, documented by reproducible receipts for three years; and, upon request, make available to the Division for inspection or photocopying, all applicable analyses, records, and receipts for purposes of review and audit.

Permitted used oil off-specification fuel burners shall submit an annual report to the Division of Solid and Hazardous Waste of activities during the calendar year. The annual report shall be submitted to the Division no later than March 1 of the year following the reported activities.
